Here's that amazing review eicsturm14 wrote:

"well the morning began with a simple phone call. Mark answered with a calm ,confidant "hello". He had a few questions of what our needs were and he already had 2 properties in mind simply based off our few requirements. We had an appt. 2 days later. The most wonderful thing was he incested on driving my father in law, husband , and I to see the properties in his own truck. The distance was 2 and 1/2 hours away. That's a lot of fuel for a large truck. Mark had a wealth of information as we began the drive about the towns we were driving through, weather conditions to expect in the area mountains even great food places. Being new to the state of Colorado this was all so informative. We stopped for coffee and to stretch our legs. Then the fun began, as we arrived a the prospective properties the 3 of us buyers bombarded his with question after question. Mark did not miss a beat. He answered them all with out even hesitation. We felt so informed before even stepping onto the lot he had in mind for us. With all that conversing in the car ride we felt so ready to make a decision as soon as we put our feet on the ground of our lot/land. For a gentleman with 25 + years of experience you could now tell. The remaining ride home was spent talking of business, family, hobbies. It was wonderful. The day ended in his office calmly doing paperwork and reviewing the contract and checking the dotted lines. Mark breezed through the paperwork with confidence and we were out of there in 45 min. by the days end we had accomplished a lot . in about 2 weeks we had a settlement and became proud landowners. I would highly recommend him as well as use him again. Thank you Mark Skelton"
